AUTOMATIC TRAP ACCESSORIES

Add to your target shooting investment and experience with our top of the line accessories created specifically for Do-All Outdoors Automatic Traps.

Easily increase longevity of your trap, time between loading, freedom of movement, ease of transportation and the quality and flexibility of your shooting experience. You can now have a long lasting, gun club quality setup of your own.

2 GUN CADDY MODEL: 2GCB

Move your gear easily with this handy, light weight gun caddy. Sure grip handle, Foot activated brake, beverage holders and pockets to hold your smaller accessories.

- 2 Gun capacity (rifles or shotguns)
- Folds up for easy transport
- Light weight construction
- Solid rubber all terrain tires

Go anywhere design

SINGLE WIRELESS REMOTES MODEL: 01DW

Throw clays any position around your Do-All Outdoors Automatic Trap with just a click of the button. With a transmission range of up to 300 feet, the wireless remote gives you true freedom on the range!

THE 40 TARGET EXTENSION KIT* MODEL: TEK40

*White Wing Trap only.

The 40 Target Extension Kit is a simple accessory to easily and significantly add to the target capacity of a White Wing Automatic Trap. The kit comes with four steel tubes and one support collar.

Screws into the existing tubes on trap and within seconds the capacity is increased. The Kit is made of stainless steel so rust and weather is not an issue.

works on most auto traps

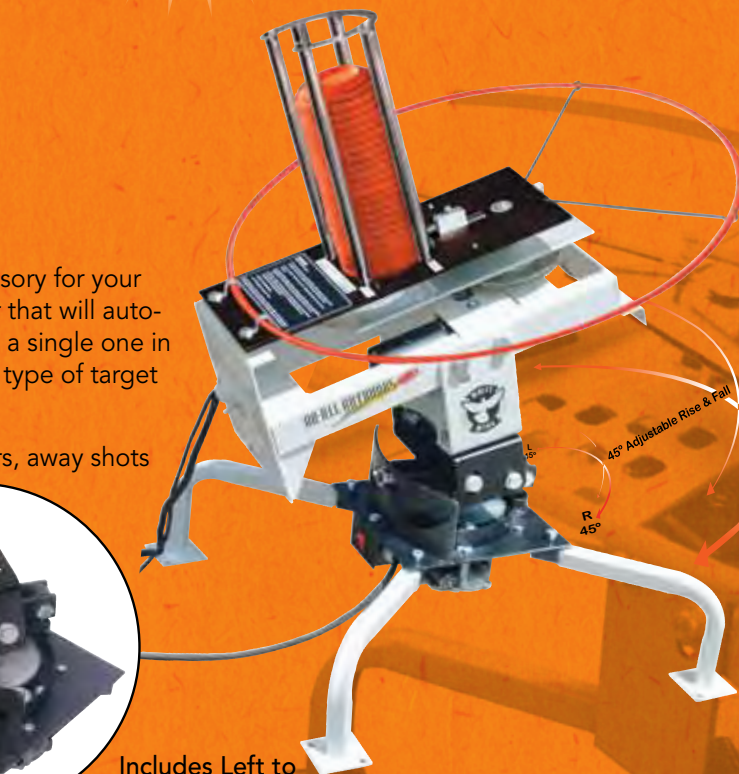

THE AUTO ADJUSTABLE WOBBLER KIT MODEL: AWK45

The Auto Adjustable Wobbler Kit is a must have accessory for your Do-All Outdoors automatic trap. A motorized wobbler that will automatically put each target in random positions, and not a single one in the same spot twice. Now any shooter can have every type of target presentation automatically and hands free.

- Present real life shooting situations, random incomers, away shots as well as fast quartering and passing shots.
- Seamlessly mounts to the Do-All Outdoor's Automatic Traps taking place of the pivot mount
- Moves 45° from left to right
- Moves 15° to 45° up and down
- Weather proof steel construction
- Powered by any 12 volt battery (not included)

Includes Left to Right and Wobble Directional Plates

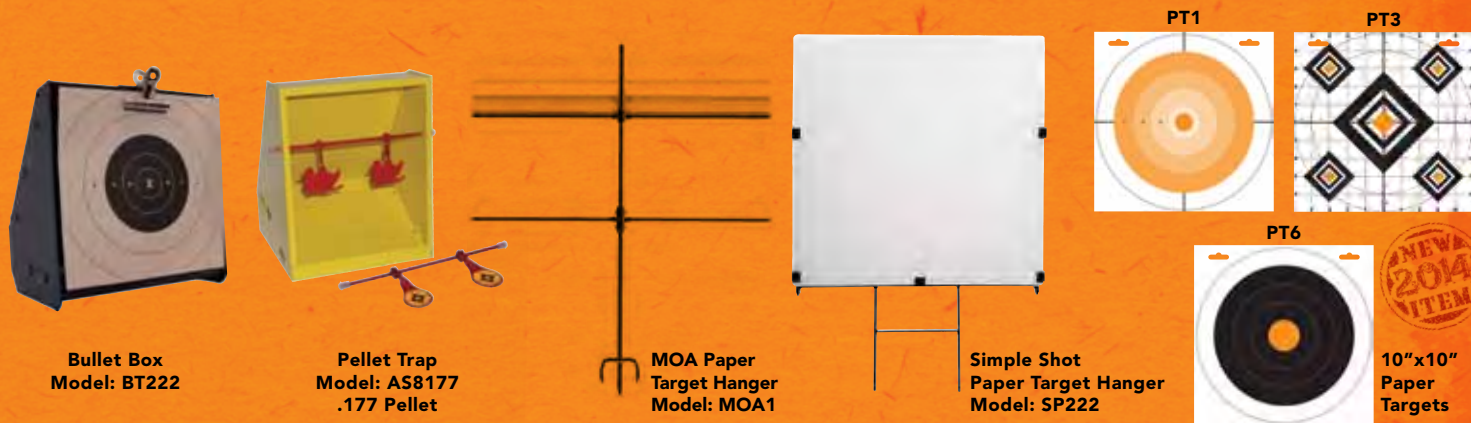

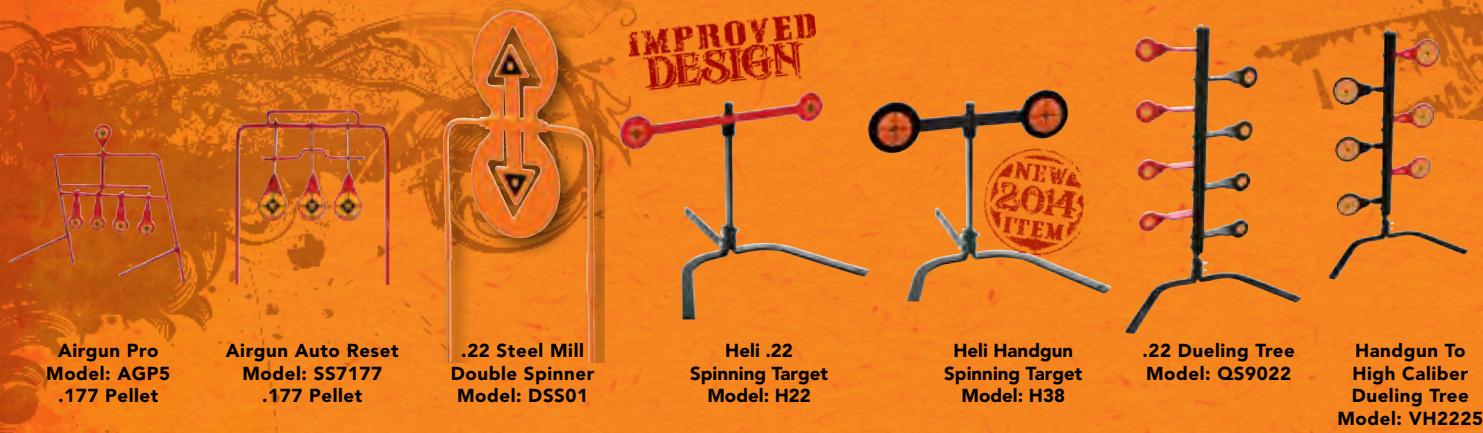

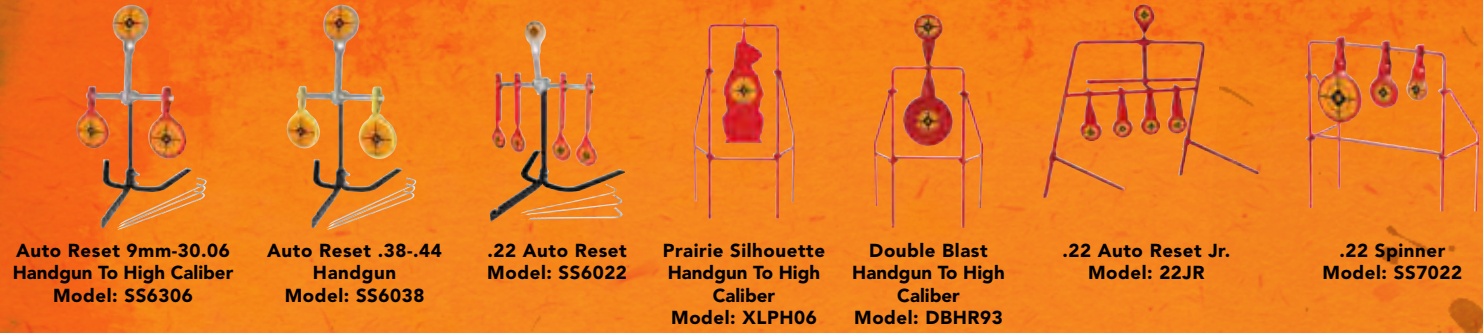

THE TRAP LIMO MODEL: TL100

Move your automatic trap with ease. The Trap attaches directly to the trap limo for secure portability. Battery Tray helps keep everything you need in one place.

- Attach Auto Trap with or without wobbler kit
- Battery holding tray
- Gripping rubber tires
- Powder coated steel
- Pull with a small tractor or ATV
- Trailer tongue pivots and locks at an angle for maneuvering by hand

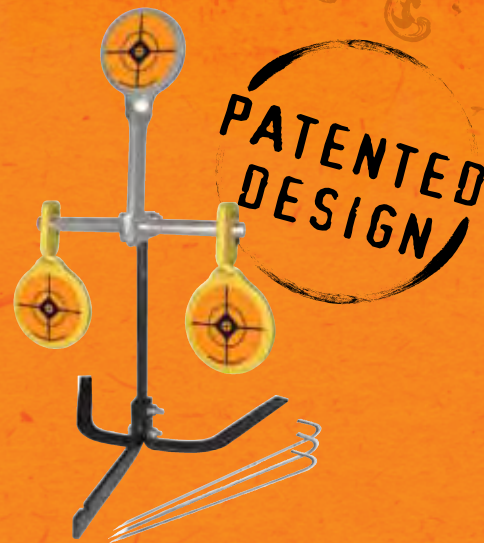

wobbler kit attaching brackets included

HANDGUN
SPINNING TARGET
Model: H38**

Target spins on a horizontal axis when struck and returns to set position.

**HELI .22
SPINNING TARGET
Model: H22**

Target spins on a horizontal axis when struck and returns to set position.

SPINNER TARGETING SYSTEMS

As the bullet strikes the targets, the force spins the targets around the attachment bar and back to the set position.

- No need to reset, just place and shoot
- Reversible targets for longer life
- Most with four leg support
- Sturdy steel construction

AUTO RESET TARGETING SYSTEMS

As the bullet strikes each target, the force spins the target and locks it in an upright position. In order to reset the system, simply shoot the reset target or each individual target and begin another round of practice or competition.

- Each target spins and locks in upright position as a bullet strikes
- On large targets the stabilizing ground spikes and forward leaning angle for downward bullet deflection increase safety
 - Sturdy steel construction and high visibility targets
- Pellet targets handle 1200 feet per second .177 pellets

**.22 STEEL MILL
DOUBLE SPINNER
MODEL: DSS01**

The Steel Mill Double Spinner is a target within a target. The large outer target moves independently of the inner target when struck. Both targets are made from high grade steel.

**THUNDER CLAP
HANGING GONG TARGET**

Hear the resounding gong from each target strike with this steel hanging target.

This gong target is built to handle repeated punishment from high caliber weapons. The hardened steel plate, with a larger surface area than competitor targets, is suspended from the sturdy "swing set" style frame using Impact Seal self healing straps. The steel tube frame can be broken down and set up quickly and easily for simple transport.

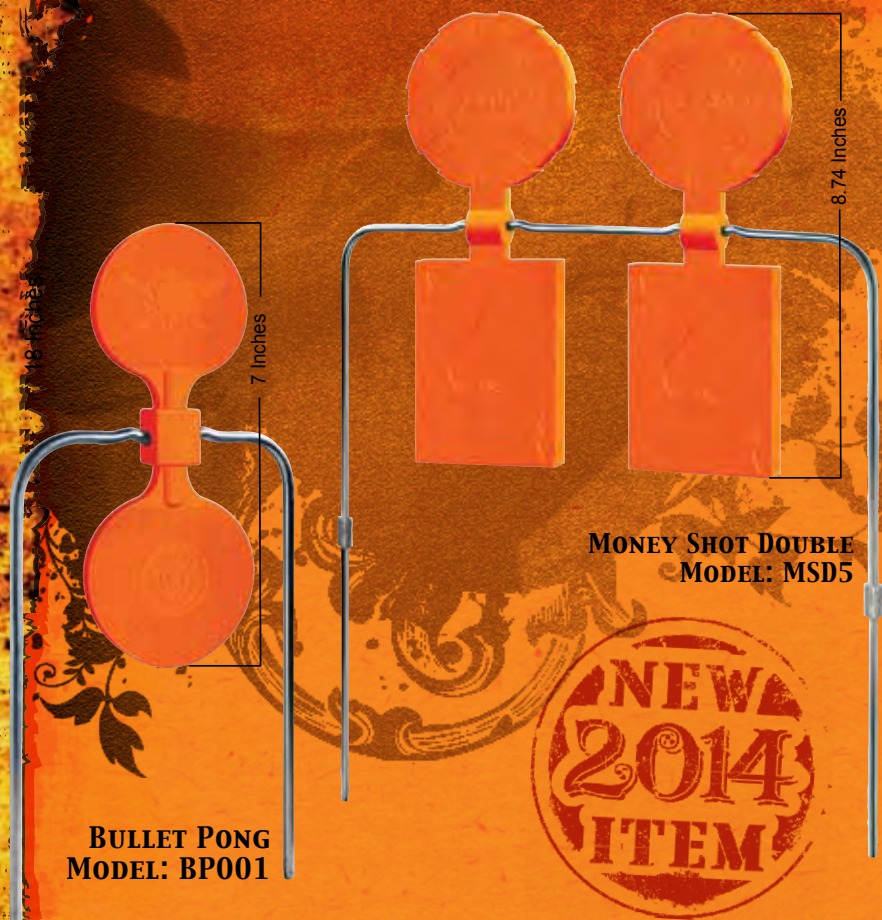

.22 Cow Bell
Model: MCB2

**IMPACT SEAL
SELF HEALING TARGETS**

Impact Seal Targets are constructed of technologically advance material. The bullet passes through the self healing target with minimal damage. This material is rugged enough to handle the repeated punishment from all calibers of rifles and handguns.

The stand provided is 2-3 times thicker and sturdier than that of any comparable targets. While the new stand is a split style, it still holds the highest industry standard in strength while reducing packaging size by almost half. These durable targets are built for long life and countless hours of shooting fun.

- Handles Thousands of Rounds
- Target Reseals Itself After Bullet Passes Through
- Bullet impact spins target around base - no need to reset
- Light Weight Yet Sturdy Material
- Longer Life Technology
- Rated For all Calibers .22 - .50 Cal.
- Rifles and Pistols
- Larger impact seal targets can be used as a paper target backer

IMPACT SEAL

REACTIVE GROUND BOUNCING TARGETS

Impact Seal Ground Bouncing Reactive Targets were originally designed for military, law enforcement and fast action pistol training. These are action targets that are unpredictable and they challenge the shooter to locate and readjust for every shot. They will fly, bounce, roll and run every time they are shot. The technologically advanced material will handle thousands of rounds from .22-.50 caliber. These targets are built for long life and countless hours of fun.

- The standard Ground Bouncing Targets handle 1,000+ rounds
- The Solid Gun Ball Target Handles 10,000+ rounds
- They Fly, Bounce, Roll, & Run every time they are shot
- Rated For all calibers .22 - .50 Cal.
- Target self heals upon impact
- Never the same shot twice
- Rifles / Pistols / Shotguns

BIOFUSION STEEL/IMPACT SEAL SPINNER MODEL: BSS01

The Biofusion Spinner is a target within a target. The large high grade steel outer target surrounds the inner target which is made of the self healing Impact Seal material. Each target spins independantly of the other when struck.

10.25

**PIGEON PERCH
TARGET HOLDER
4-PACK
MODEL: PP4**

**PIGEON PERCH
RE-SEALS UPON IMPACT**

Available in a 4 pack the Do-All Outdoors' Pigeon Perch is constructed of the technologically advance Impact Seal® material. The bullet passes through the self healing material with minimal damage. This material is rugged enough to handle the repeated punishment from all calibers of rifles and handguns as well as BB and pellet guns. With a competitors target holder, one missed shot could mean the end of your target practice. Unlike plastic holders, this material will not crack or break.

To Use:
Insert rod into bottom of holder. Stick Pigeon Perch into ground in front of safe backdrop. Slide clay target firmly into U-shaped holder. Works best with standard 4 1/2 inch targets

- Self healing material
- Holder re-seals when bullet passes through
- Long life technology Won't crack or break

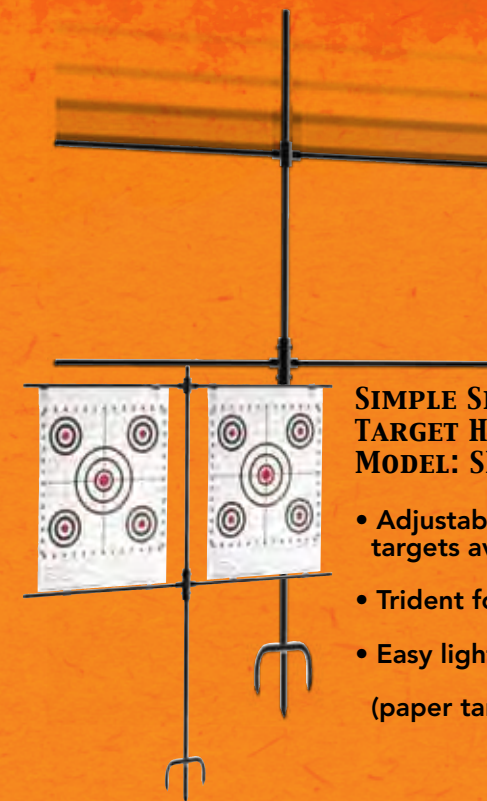

All Caliber Pistols
All Caliber Rifles
Pellet/BB Guns*
Archery

**PIGEON PERCH WITH
KNOCK-OUT DISCS COMBO**
