

Do-All Traps Airgun

The Do-All Traps Airgun auto reset is specifically engineered for airguns that shoot pellets. This is a hands free resetting system. As the pellet strikes each target, the force spins the target straight up. To reset the targets, simply shoot the reset target or any other target and begin another shooting rotation.

With the Do-All Traps Airgun auto reset, millions of air gun owners now have a great new target system to improve their shooting skills.

Airgun Auto Reset in the box

In the ground & ready to fire
